

esafety

I have just done an eSafety Webinar on Cyberbullying. It is a compulsory learning package that must be completed by all school Chaplains/PCWs. I found it extremely worthwhile and informative and it was a real eye opener. As well as the content of the Webinar, the other helpful take-away for me was how much information, training and resources are available on the Australian Government eSafety website. For kids, parents and educators.

As parents of Primary School aged children, we are about to find ourselves right in the thick of it as our kids head full steam ahead into an online world, if they are not there already. We are well aware that internet use and social media access comes with a whole host of related issues and eSafety is committed to empowering all Australians to have safer, more positive experiences online.

Free Webinars for parents and carers

Join one of the webinars for parents and carers, at no cost.

These live webinars explore the latest research and they are a great way to learn how you can help your child develop the skills to be safer online.

All sessions are delivered by eSafety's expert education and training team.

eSafety has just launched its newest resources for our youngest Australians – an original picture book and song.

Check out this site. It has such helpful resources!!

As parents we cannot afford not to educate ourselves on this.
